## CURRENT STATISTICS

## Justice Chandru Committee Report

The committee's focus on educational institutions alone is insufficient as entrenched caste ideologies in social spaces cultivate caste pride and assertion among students and young adults, challenging efforts to curb the practice of caste in educational settings. **page 40**

## Assault on Transgender Rights

Trump's executive orders exhibit a broader ideological project of reinforcing biological essentialism and risk setting a dangerous global precedent that encourages the erasure of diverse gender identities. **page 10**

## Staving off Stagflation

Along with monetary measures to check inflation, there needs to be a greater emphasis on fiscal measures to ease supply-side pressures on inflation, and enhance income and employment prospects. **page 14**

## Bangladesh and India

While India can support the churning and reforms in Bangladesh, it should intercede on behalf of or empower democratic secular forces, possibly including or excluding the Awami League. **page 22**

Though many counties have been converted into county-level cities and districts, rural governance again requires party intervention to maintain a balance between urbanisation and social welfare. **page 35**
