POSTSCRIPT

Assam 2021

The next assembly elections in Assam would be determined by the Congress's ability to forge a counter coalition and a consensus to challenge the Bharatiya Janata Party's dominance. page 12

Agricultural Markets in Bihar

The repeal of Bihar's APMC Act in 2006 has seen market infrastructure remaining stagnant, public procurement remaining negligible, and prices remaining below the minimum support price. page 17

Rules of the Road

A site of conflict and contestation, the spatial and temporal frame of roads across Manipur is driven by the nexus of politicians, contractors, bureaucrats, insurgents and elites. page 38

India's Gobar Economy

The key to unlocking gobar's economic potential lies in strengthening India's biogas programme by piloting new business models for village-scale plants with the support of dairy cooperatives. page 43

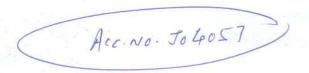

Effect of Inflation Uncertainty

A first attempt at using a stochastic volatility in mean model with the time-varying parameter and the wholesale price index to assess how uncertainty affects inflation over time in the Indian context page 52

CURRENT STATISTICS

A Remunerative MSP

The MSP faces redundancy in the new policy environment, which is set to create an exploitative free market that will be inimical to farmers' interests. page 12

Farmers' Bargaining Power

Agriculture gets a raw deal in the fiscal stimulus package as farmers are adversely placed with regard to collective action, weakening their position to bargain or lobby for resources. page 16

Failure of Apex Wildlife Body

The government's failure in having a functioning National Board for Wildlife, a body presently guided by narrow short-term economic interests, will have long-term ramifications for biodiversity and human welfare. page 30

Hissedari to 'Absolute Equality'

The new generation of Dalit leaders needs to go beyond Kanshi Ram's legacy of envisioning democratisation through community-based *hissedari*, towards an imagination of substantive citizenship. page 35

DNA Regulatory Board

The form and purposes of the DNA Regulatory Board under the much-criticised DNA regulation bill need to ensure that it does not violate the principles and structure of the Constitution. page 19

POSTSCRIPT

Punjab's Agrarian Crisis

The approach of the Punjab government's expert committee to the agricultural sector, of tinkering with existing policies, is critiqued and an alternative perspective is presented. page 10

Managing Debt Burdens

A survey of rural microfinance clients in Maharashtra shows that borrowers having income deficits will be unable to service their debts as the loan repayment moratorium is relaxed. page 13

Auditing Caste-based Exclusion

A target-oriented social audit system and its weak vigilance wing miss the caste-based exclusion in the implementation of the Mahatma Gandhi National Rural Employment Guarantee Act. page 35

Inflation Dynamics in India

Indian inflation behaviour—the dynamics of consumer price index headline, core, and food inflation—is revisited by employing the atheoretical approach pioneered by Stock and Watson in 2007. page 42

Ambedkar's Dhamma and Sangha

Ambedkar's reinterpretation of classical Buddhism and Plato's theory of imitation, devoid of dialectics, constructs sangha as a new source of institutional power. page 29

- The Role of Social Capital in the Performance of Fish Businesses

CURRENT STATISTICS

Marriage and Women's Agency

Uttar Pradesh's anti-conversion ordinance makes the government the self-appointed custodian of women under the pretext of "protection," and undermines their agency exercise of choice in marriage. page 15

Trust in Police

Managing trust is important in policing, an integral part of the state machinery, as people's experience of violence can affect their perception of and the amount of trust they vest in the police. page 41

Fighting Child Labour

Using a trade-theoretic framework, the links between social exclusion and child labour are explored, highlighting the importance of disaggregation and social exclusion for policymaking. page 49

The China Conundrum

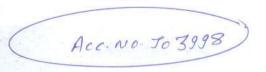

India's China conundrum cannot be overcome without rejecting the narrative of the "new Cold War" and other anti-China propaganda emanating from Western points of view. page 19

The Right to Water

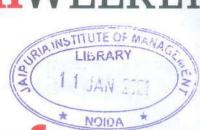

In Chile, the only country where water is privatised, as the right to water is not enshrined in the constitution, this resource transforms itself into a consumer good, which is tradable. page 36 **DECEMBER 26, 2020**

Review of Urban Affairs

A set of four papers on repair and maintenance in South Asia explains how the repairers and maintainers of Kolkata, Karachi, and Mumbai experience and contribute to the changing urban landscape and make the cities functional; an independent paper traces the social history of Jangpura neighbourhood in Delhi. page 31 onwards

Forest Rights in the Pandemic

Within the legal framework of wildlife protection and rights of forest-dwelling communities, can the forest department forcibly evict these communities, as it has been trying to do in Rajaji National Park? page 10

On 'Professional' Journalism

The critique of journalism from the inside proposes for an engagement with the field to critically reflect on a multitude of power structures, but also taken for granted constructs within the field of journalism. page 25

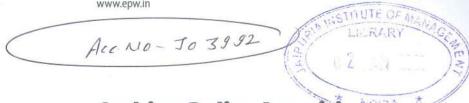

Income and Consumption Inequality

The focus on one headline gross domestic product growth rate number may hide several important trends in the economy, obfuscate the facts, and have implications for economic inequality. page 13

DISCUSSION

Green Revolution and the Yield Question

CURRENT STATISTICS

Curbing Police Atrocities

Sustained public outrage is needed to check the power of the police in order to ensure justice and accountability for the heinous offence of torture. page 32

Harnessing Agri-start-ups

The impact of COVID-19 on start-ups engaged in agriculture has been devastating, and government investment is crucial to unlock this sector's potential. page 13

Violence in the Law

Karnataka's poorly drafted cow slaughter bill is an example of state-sanctioned violence being used to subject the marginalised to further atrocities within the framework of law itself. page 10

Crude Oil Price Hits Sub-zero

Crude oil price becoming negative is a rare event, the effects of which, while not benefiting end users in India, will have an impact on the country and investors. page 18

Last Mile of Mumbai's Lifeline

Last-mile connectivity could play a vital role in the twin pursuits of retaining and augmenting the sustainability gains from public transport and improving commuter experience in Mumbai. page 38

Editorial Principles

Value Research is an independent investment research company. Our goal is to serve our readers with data, information and knowledge that inform them about savings and investments and help them learn how to make better choices.

The basis of our work is the trust reposed in us by our readers. We are independent, fair and honest. We are committed to achieving the highest level of accuracy and impartiality in everything that we publish.

We recognise that the nature of our work is such that it influences decisions that affect our readers' future. We strive to bear this responsibility with humility. We recognise that while it is not possible to be 100 per cent accurate, it is possible to always strive to achieve that standard to the best of our abilities.
