Review of Urban Affairs

A set of six papers challenges the conventional wisdom that informality is a problem to be eradicated, insisting that it must be engaged with as a vital component of urbanisation. The papers call for policies that acknowledge the role of informality in sustaining cities while ensuring greater security and rights for those within it. **pages 39–92**

Crises in Inclusive Finance

The trouble in the inclusive finance space could come from the cracks in the lending model, policy-induced trouble, politics and electoral cycle-induced trouble, and organisation design-based trouble. **page 10**

Musk and the Far Right

Musk, with his links to White privilege in apartheid South Africa, has waded into the British debate as part of his White supremacist agenda, more indirectly invoking England as the fount of the "Western civilisation." **page 22**

Local Government Finances

The approaches adopted by union finance commissions for the devolution of funds, primarily centred on population and area, have fallen short in materialising fiscal decentralisation and enhancing the service delivery framework. **page 30**

DeepSeek's Innovative Disruption

Upending the economic rationale behind massive capital inflows, DeepSeek introduces the possibility of a more equitable approach to AI development that could democratise access and disrupt the monopolistic hold on the AI sector. **page 15**

Shock Therapy in Argentina

Cuts to infrastructure, education, and research funding threaten long-term growth, while rising poverty and unemployment highlight the human toll of austerity measures imposed by Javier Milei's government. **page 10**

Adoption of Artificial Insemination

Supporting cooperative and farmer group initiatives that provide a market for livestock-related products and strengthening extension services can facilitate faster dissemination of artificial insemination technology. **page 68**

Universalism of the Oppressed

While the politics of Dalit–Bahujan cultural assertion unsettles the conventional ruling elite, it has yet to build its ideological challenge rooted in the philosophical universalism that Phule and Ambedkar envisaged. **page 36**

Aspirational Districts and SDGs

The reliability and integrity of the ADP dashboard data need to be strengthened on priority in order to instil confidence in the programme and effectively monitor progress. **page 59**

49 • REDEFINING AESTHETICS

Celebrating architects and interior designers who have pushed boundaries by utilising technology and AI, and set new standards in the industry

IN FOCUS

62 • DOING MORE, DOING DIFFERENT

An AI hype cycle may be on, but the new technology is upending established customer expectations, timelines and work practices in India's IT services industry

70 • FLYING INTO ROUGH WEATHER

Hindustan Aeronautics Limited has failed to deliver the Tejas aircraft to the Indian Air Force. Will better supply chain management and private sector involvement help?

Grocery stores, such as this one in Dwarka, New Delhi, are experiencing lower purchase volumes amid the rise of QComm

Hari Menon, co-founder and CEO of BigBasket

Following the first batch of 40 Tejas aircraft, HAL is supposed to make 83 Tejas Mk1As, while also designing and developing the Mk2 variant

78 • JIOHOTSTAR: THE ROAD AHEAD

Will AI-led personalisation, longer-form content, working with top creators, and live streaming beyond sports be enough to help JioHotstar fight the competition?

80 • CAN AI & GREEN ENERGY COEXIST?

As data centres become integral to India's digital future, there is an opportunity for this power- and water-guzzling industry to be energy efficient and sustainable

FILA

96 • RIDING THE STORM

Amidst unfolding global chaos, industry leaders said companies should use a downturn as an opportunity to prepare for a stronger future by focusing on innovation

Interview

"United India Insurance has undertaken significant innovative transformations and is strategically positioning itself to better address the evolving needs of its customers and maintain a competitive edge in the market."

Bhupesh Sushil Rahul
CMD
United India Insurance Co. Ltd.

"Every year, insurers lose 8-10% of their revenue to fraud, but they manage to thoroughly investigate only about 1% of fraudulent claims. This ongoing issue continues because of significant gaps in the current fraud detection and investigation practices."

Suvajit Sengupta
Chief Technology Officer
Kriyam.ai

"It is heartening to note that IRDAI recently formed a high-power panel to suggest measures for insurance reforms. It is expected to examine various areas of the Insurance Act 1938 and recommend suitable and adequate amendments in keeping with the changing business trends and requirements of the customers."
